

Harshit Garg

AI/ML Developer | Generative AI | Python Developer

gargh2120@gmail.com | (+91) 7819007832 | Noida, Uttar Pradesh, India | [linkedin.com/in/dev~harsh](https://www.linkedin.com/in/dev~harsh) | github.com/harshitgarg-03

PROFESSIONAL SUMMARY

Computer Science student specializing in AI/ML with hands-on experience building Generative AI applications using Python, Gemini API, LangChain, LangGraph, RAG, embeddings, and vector databases. Built AI-powered systems for document intelligence, semantic search, question answering, and natural-language interaction with application data. Experienced with FastAPI, REST APIs, databases, and backend services, with a focus on building practical AI solutions from prototype to deployment.

TECHNICAL SKILLS

Programming:	Python, JavaScript, TypeScript
Generative AI:	LLMs, Gemini API, LangChain, LangGraph, RAG, Prompt Engineering
AI Systems:	Embeddings, Vector Databases, Semantic Search, AI Agents, MCP
Backend & APIs:	FastAPI, Node.js, Express.js, REST APIs, API Integration, JSON
Databases:	ChromaDB, PostgreSQL, MongoDB, SQL, Prisma ORM
Tools:	Git, GitHub, Docker, Vercel

PROJECTS

Doc-Mind AI — RAG-Based PDF Analyzer · [Python](#), [FastAPI](#), [Gemini API](#), [LangChain](#), [ChromaDB](#) 2026
[GitHub](#)

- Built a **RAG-based document intelligence system** using Python that extracts, chunks, embeds, and semantically searches PDF content with **Gemini embeddings** and **ChromaDB**.
- Implemented document question answering with relevant chunk retrieval, page/section metadata citations, and **streaming LLM responses** using FastAPI and Server-Sent Events.

Expense Tracker — AI-Powered Finance Assistant · [Next.js](#), [PostgreSQL](#), [LangChain](#), [FastMCP](#), [OAuth 2.1](#) 2026
[Live Demo](#)

- Developed an AI financial assistant using **LangChain** to analyze transactions, expenses, budgets, and savings through natural-language interactions.
- Built and deployed a remote **MCP Server** using FastMCP, enabling AI clients to securely interact with application data and tools through **OAuth 2.1 + PKCE**.
- Integrated AI workflows with backend services and databases to connect natural-language requests with real application data.

AI Quiz App — LLM-Powered Assessment Platform · [Node.js](#), [Express.js](#), [MongoDB](#), [Gemini API](#) 2025
[Live Demo](#)

- Integrated **Gemini API** to generate dynamic quizzes and built REST APIs for attempt tracking and result evaluation.
- Designed database schemas and backend workflows for managing generated content, user attempts, and evaluation results.

Path Shala — Learning Management System · [Node.js](#), [Express.js](#), [MongoDB](#), [JWT](#) 2025
[Live Demo](#)

- Built REST APIs and backend workflows for a multi-role learning platform with authentication, role-based access control, search, filtering, and pagination.
- Worked with databases and API integrations to implement application features for different user workflows.

EDUCATION

B.Tech — Computer Science & Engineering (AI/ML) 2023 – 2027
Accurate Institute of Management & Technology, Greater Noida CGPA: 7.5

ACHIEVEMENTS & ACTIVITIES

- **Smart India Hackathon (SIH):** Led a team in developing and presenting a functional technology prototype under tight deadlines.
- **AI Development:** Built hands-on AI projects involving LLM APIs, RAG, embeddings, vector databases, APIs, and backend services.
